Cindy

What we talked about yesterday was that UT (Brock) would make the local officials aware that EPA and UT were interested in getting input from stakeholders as part of a potential rulemaking process, and then UT would offer to facilitate a call between us and any interested local officials. If Bill wants to have a call so we can brief him with the same info we have discussed with other stakeholders we can work to get that set up.

We have also made the same offer to the FLMs, in particular BLM.

Thanks

Carl Daly, Director
Air Program
303-312-6416

We have a different plan. Carl can explain our approach. The 17th not for locals.

Bill is definitely interested in being a part of this. Can we go ahead and send him invitation for 9/17. He won't be able to make that time but at least we reach out and offer - open the door to set up another time.
